

Real-time visibility across your organisation

A new way to drive measurable
efficiency through any process

“The ROI on Magnitude is a no-brainer”

Kabous du Preez, MD – SA Rope Access

A new way of thinking; A better way to work

A *no-code* platform that *you configure* – fast!

Deploy to mobile and desktop

Process efficiency boost across your organisation

- Process digitisation
- Time and physical distance are no longer an enemy
- Goodbye to email and instant messaging as control tools
- All party's perspectives per activity
- Visibility, personal accountability and management by exception
- Organisational IP stabilised and protected

“Significant improvements to our process and leagues ahead of the competition. I am thoroughly impressed”

Paul Colmer, CTO – **Greencom**

Only **4%** of issues are visible to top management

96% of issues are invisible to top management

Icebergs of Ignorance Sidney Yoshida ©1989

Across industries & functional departments with **Magnitude** you:

- ✓ **Boost efficiencies**
= More doing of the things that count
- ✓ **Create visibility**
= All staff members accountable
- ✓ **Manage risk and compliance**
= Reduce liability
- ✓ **Compress time on all your results**
= Reduce cost & risk
- ✓ **Hit the ground running – fast!**

“The interactivity between parties is second to none”

Preston Trollip, IT Manager – OTIS southern Africa

Key Benefits

Communication & collaboration

Understand all relevant perspectives so that you can know whether your business processes are meeting expectations

Exceptions are identified

Magnitude alerts and highlights process exceptions to specific role players

Resolution

Is continually tracked real-time so that all involved parties are able to understand status on exception issues

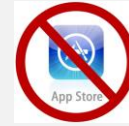

Quality metrics

Are continually tracked allowing trends and anomalies to become visible

Graphical analytics

Are continually generated. All data is CSV downloadable so that you can interrogate more deeply

No app required

It is not necessary for stakeholders to download the app to collaborate with you

Integration

With existing systems where relevant to ensure you have a single-entry process

No-code configuration

Your people build processes fast with easy training

“Ease of management! Across locations, customers, suppliers and spaces”

Jeannie Jordaan, GM – Brydens Group
